## NM Rothschild & Sons Are Moving In For The Kill! Witness Their Work All Over The Globe! RIGHT NOW!!!

by [Raymond L'Heureux](#) and Richard Salbat  
Also [William Still](#)

The World Bank/IMF is owned and controlled by NM Rothschild & Sons plus 30 to 40 of the wealthiest people in the world. For over 150 years they have planned to take over the planet through money. The former chief economist of the World Bank, Joe Stiglitz, was fired in 2000. He pointed out to top executives that every country the IMF/World Bank forced their way into ended up with a crashed economy, a destroyed government, and some even broke out in riots. Former President of the World Bank/IMF Sir James Wolfensohn, would not comment on his dismissal.

Before Joe Stiglitz was fired he took a large stack of secret documents out of the World Bank.

*These secret documents from the World Bank and the International Monetary Fund reveal that the IMF required nations:*

1. To sign secret agreements containing 111 destructive items. (I'd love to get a hold of that list)
2. To agree to sell off their key assets – water, electric, gas, etc.
3. To agree to take economic steps which are devastating to the nations involved.

If they do not agree to these steps they are cut-off from all international Import/Export. If you can't borrow money in the international marketplace, no one can survive, whether you are people, corporations or countries. If that doesn't work they

overthrow the government and rewrite history.

### ***The Argentina Plan***

Inside documents from Argentina show the top-secret Argentine plan. This was signed by Sir James Wolfensohn, the former president of the World Bank. Argentina has had six presidents in five weeks because their economy is completely destroyed. This happened because they started out in the end of the 1980s with orders from the IMF and World Bank to sell-off all their assets, public assets, like their water system. Then they taxed the people. They created big government and big government handed it off to the private IMF/World Bank. They pay off the politicians billions in Swiss bank accounts.

Cronies like Citibank grabbed half the Argentine banks. British Petroleum grabbed pipelines in Ecuador. Enron grabbed water systems all over the place. The problem is that they are destroying these systems as well. You can't even get drinking water in Buenos Aires. It is not just a question of theft. It is more than someone getting rich at the public expense. And the IMF just got handed the Great Lakes. They have the sole control over the water supply now. The IMF and the World Bank is 51% owned by the United States Treasury.

### ***Remember What We Learned From Enron***

The water system of Buenos Aires was sold off for a song to Enron. A pipeline was sold off, that runs between Argentina and Chile. The globalists then blew out Enron after transferring the assets to another dummy corporation. .

They come in, pay off politicians to transfer the water systems, the railways, the telephone companies, the nationalized oil companies, and gas stations, ect, ect. . . – The appointed or selected politicians then hand over raped assets to the IMF for nothing. The Globalists pay them off individually, billions a piece in Swiss bank accounts. Their plan is total slavery for the entire population.

### ***IMF Planned Riots***

The IMF/World Bank have been systematically tearing nations apart, whether it's Ecuador or Argentina or America and Israel. Privatization equals Pillaging and Rape. Steal from the people and hand over everything to the IMF/World Bank.

### **The world is in flames.**

They know that when they squeeze a country and destroy its economy, you'll get riots in the streets. And they admit that because you have riot, all the capital runs away from whatever country and that presents the opportunity for the IMF to move in for the serious takeover.

It really is an imperial economy war meant to implode countries and now they have started in America. They are damn greedy. Chief investigators of the State of California said that that it's not just the stockholders that get ripped off. They suck millions, billions even trillions of dollars out of the public pockets. Where are the assets? See, everybody says there are no assets left. They transfer all assets to other corporations and banks.

### ***Rothschild – The Plague Of The Red Shield***

Burrow into NM Rothschild & Sons, you'll find it all there. The IMF/World Bank implosion, four points, how they bring down a country and destroy the resources of the people. First you open up the capital markets. That is, you sell off your local banks gold to foreign buyers. Then you go to what's called market-based pricing or even silver. That's the stuff like in California where everything is free market and you end up with water bills no one can pay. Then open up your borders to trade. It's like the opium wars. This isn't free trade; this is coercion trade. This is war. They are taking apart economies through this system. China has a 50% to 60% tariff on the U.S. but the U.S. has a 2% on them. That's not free and fair trade. It's to force all industry into a state of one world order that the globalists control 100%.

**“Beware of calls to return to a gold standard. Why? Simple. Because never before has so much gold been so concentrated outside of American hands. And never before has so much gold been in the hands of international governmental bodies such as the World Bank and International Monetary Fund. In fact, the IMF now holds more gold then any central bank.”**

As I perceived the end quote by Bill Still coming downstream to us readers sometime soon I reiterate the danger of asset/commodity backed currency due to the also worrying level of concentration of capital and focus by wealth management companies fragmented but nevertheless centrally funded by enterprise system to tune of 3 trillion \$usd for use in major land grab in N Africa starting in ethopia and nile delta region to propogate across N plain of sub continent after dust settles to encompass agricultural/crude oil reserves and key assets such as strategic suez.

Enterprise et al are beyond government level of perceptive ability with funding to structure events that lead to favourable conclusion on short/medium and long range goals.

These are just my own humble opinions of course

Agreeing with the earlier post – looks like the ultra-wealthy (via international mechanisms – IMF, World Bank) are buying up national assets to re-create their wet dreams of “Neo-Colonization” of the planet. Nothing like sucking blood from the masses...to keep these elite vampires alive and happy. I wonder if silver stakes through their heads will have any affect?! (yes, I’m mixing analogies)

Good article, but I wish the assertions were footnoted to authoritative or “mainstream media” sources.

To win, we need converts. To get converts, we need confidence. To get confidence, we need certainty. To get certainty, we need footnotes.

Let’s not just be right. Let’s win.

Well put Haig, I’d wish we could see confirmation links. I too will be ready to throw myself behind this movement however real evidence is the only way to spur the masses into action. Opening the sheeples eyes is another thing. They can’t accept the notion of anything on this level, they’ve never been in the company of such repulsive beings.
