Scrubbed By Corporate Media – Explosive Live BBC Interview With A Man Who Witnessed The Police Beating 16 Of A Year Old Girl That Sparked The London Riot Violence As It Happened

There is a lot of disinformation out there about why the people in London are rioting and most of this is being perpetrated by the corporate media who we know from the news of the world hacking scandal can not be trusted.

Note: [UK Residents – How To Get Around Government Censorship Of YouTube Videos.](#)

Scrubbed – Explosive London Riots BBC Interview: Violence Sparked By Police Beating 16 Year Old Girl

While there are claims the riots were sparked by rogue criminal elements, race, poverty which may all be contributing to the ongoing riots the fact that the corporate media is not reporting is the violence was triggered by 15 police officers beating a 16 year old girl.

A video of the beating is posted on [this page](#).

I have decided to mirror an explosive BBC interview with an eyewitness live at the scene of the outbreak of the violence which the media is refusing to report to the public.

References of the beating of this teenage girl have been scrubbed from all news sites, with the exception of this [Daily Mail article](#) which interviewed another witness that corroborates the claim.
