## Silver Calculator for your Cell Phone

8

Do you have any U.S. coins from before 1977? Some of those coins are actually 90% silver in weight and now sell for up to 20 U.S. paper dollars.

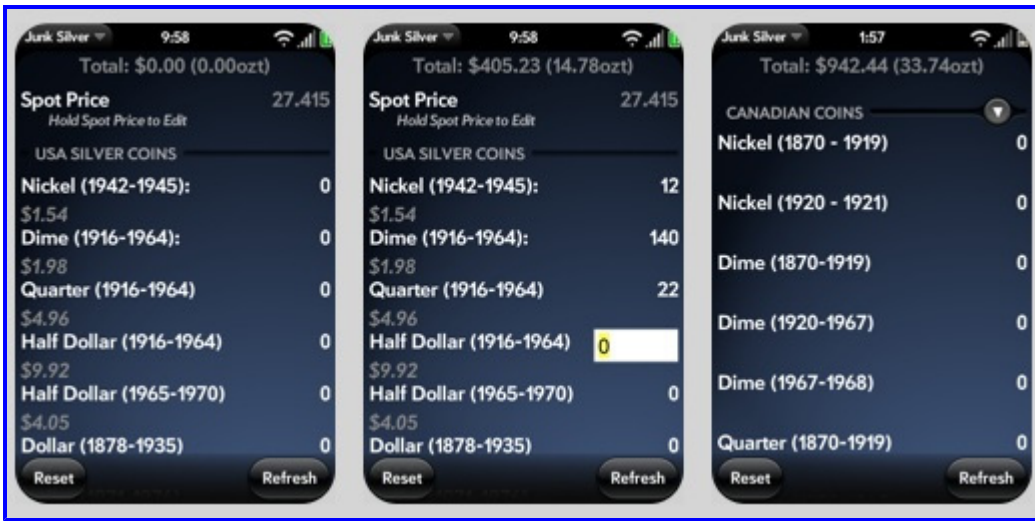

Do you know how much your coins are worth? This calculator will help you convert back and forth between silver coins and U.S. paper dollars. Find out the prices of “junk silver” coins from the U.S. Mint including: pre-1965 dimes, pre-1965 quarters, pre-1965 half dollars, pre-1965 dollars, half dollars from 1965 to 1970, and dollars from 1971 to 1976 from the San Francisco mint. Don't see a coin or currency that you're looking for? Let us know.

### [iPhone App](#)

The iPhone app has been submitted to Apple for approval. Whenever they get around to approving it, I'll update this post. In the mean time, you can use the web based application found [here](#).

### **Black Barry App**

Still looking for a BB app developer to help with this project. If someone has a BlackBerry, could you please try this online version and see if it works?

[Possible Online BlackBerry Application](#)

Many coins minted prior to 1965 contained a high percentage of silver. Since they contain silver, these coins are worth FAR MORE than their face value. Businesses around the country are starting to trade in silver bullion and US minted coins that contain silver.

When Silver is \$30 / ounce, this is what each coin is worth

Coin	Face value	Percentage silver	Weight of coin in grams	Ounces of silver in coin	FRN value
1942-45 War Nickel	\$0.05	35%	5.00	0.05626381	\$1.69
Any Dime 1964 or older	0.10	90%	2.50	0.07233918	2.17
Any Quarter 1964 or older	0.25	90%	6.25	0.18084795	5.43
Any Half Dollar 1964 or older	0.50	90%	12.50	0.36169590	10.85
1965-1970 Half Dollar (S Mint)	0.50	40%	11.50	0.14789343	4.44
Any Silver Dollar 1964 or older	1.00	90%	26.73	0.77345051	23.20
1971-76 Silver Dollar (S Mint)	1.00	40%	24.59	0.31623474	9.49

Old School
