Globalist George Soros: "America Should Be Replaced By a World Government With a Global Currency Under UN Rule"

"Reorganizing the world order will need to extend beyond the financial system".

The main obstacle to a stable and just world order is the United States

Internationalist billionaire George Soros is holding his international conference April 8 to April 11 at Bretton Woods, N.H., the noted birthplace of the World Bank and the International Monetary Fund, where he plans to "rearrange the entire financial order," as he noted in a November 2009 article in The Japan Times Online. This "Bretton Woods II" comes along just as the Trilateral Commission will be meeting at the same time in Washington, D.C. With an apparent goal of creating nothing less than a new global economy, Soros is spending \$50 million in New Hampshire to bring together up to 200 academic, business and government policy leaders under his Institute for New Economic Thinking (INET). As AFP goes to press, the attendees are to include ex-Fed Chairman Paul Volcker, former British Prime Minister Gordon Brown and World Bank executive and Nobel Prize winner in economics Joseph Stiglitz. The conference is slated for the Mount Washington Hotel, site of the historic 1944 Bretton Woods conference, which established the post-World War II international financial architecture. Soros chose this site because he expects his proposed reforms to be as radical as those promoted by British economist John Maynard Keynes, the much-praised "genius" of the original Bretton Woods project. Keynesian economics have been portrayed as a cure to the Western world's postwar devastation, in that governments were liberated of money creation restrictions imposed by the gold standard, even while global financiers controlled much of the world's gold like they do now. Governments, under the new paradigm after the war, were encouraged to promote economic growth and macroeconomic stability by creating more debt-based money for everything that ailed the economy—debt that has brought most of the world's economies to the brink of bankruptcy. Now Soros comes along as the new Keynes to save the day by proposing another miracle solution to our problems, couched in lofty doublespeak such as "reform," "cooperation" and "equal participation." Soros is proposing the end of sovereignty as we know it.

"Reorganizing the world order will need to extend beyond the financial system," Soros wrote in his opinion piece.

Soros is saying that a washed-up America should be replaced by a world government with a global currency under UN rule. He also advocates that China should be top dog while we play second fiddle. What Soros doesn't say is that two decades of outsourcing U.S. industry, opening the borders and bankrupting the economy with pointless wars and other debacles have been intentionally orchestrated so that now international bankers can tell the world the system is broken and that the individuals who broke it need to show us how to fix it.

Georgy Schwartz, aka George Soros, is a Hungarian Jew who has been described as anti-God, anti-family and anti-American. **By his own admission he even helped confiscate the homes of fellow Jews in Hungary in 1944.**

In an interview with Steve Kroft of 60 Minutes he said 1944 was the best year of his life. Asked by Kroft if he felt any remorse, he answered, "No, not at all; I rather enjoyed it."

"No feelings of guilt?" asked Kroft. "No," answered Soros, "only feelings of power."

Soros made his first billion as a currency speculator in 1992 by shorting the British pound and causing misery to millions of hardworking British citizens. He went on to cause the 1999 Russiagate scandal, almost collapsing the Russian economy. It was described as "one of the greatest social robberies in human history."

He did the same to Thailand and Malaysia in 1997, causing the Asian financial crisis of that time. Malaysian Prime Minister Mahathir Mohamad called him "a villain and a moron," while Thailand's PM referred to him as "Dracula." He also helped dismantle Yugoslavia and caused major trouble in Japan, Indonesia, Georgia, Ukraine and Burma by raiding their economies.

Soros also fosters cultural degeneracy by supporting abortion rights, atheism, drug legalization, sex education, euthanasia, feminism, gun control, globalization, mass immigration, gay marriage etc. **Soros funded Barack Obama's campaign and often visits the White House.**

At 81, taking down America appears to be his final challenge. "The main obstacle to a stable and just world order is the United States. The time has come for a very serious adjustment," he said.

 That's it George, absolutely, positively guarantee your place in hell while you still have time, dumb old man. Think God is a myth? Best look around a bit more.
 God set up nations and governments and exorcized his power and dominion over them. Some were blessed for obedience, some were cursed for abstinence as and example for all. To have a one-world government is to tell God to get lost, MAN will will now rule. God, not being a fool, will punish the one government that is left for attempting to exalt itself above him. Hey George, just ask Satan how that worked out for him while you are there.

Soros should be swinging from a rope, along with the other globalists that threaten statehood and the nation-states that they want to destroy.

I have to believe they will fail. There must be 3% of really pissed off Americans NOT on the dole by now...

Turn off the TV. Take your money out of the big banks, buy silver (and gold). Store food. Exercise your 2nd Amendment rights. Grow a garden. Stop getting vaccinations. Filter the fluoride out of your water.

Wake UP America – these guys seriously think they are going to take over and turn this into the world George Orwell warned about in 1984 (or a combination of that and Brave New World).

Home school your kids. Teach them how to think, not blindly submit to authority.

It's up to us. Nobody else is going to do it for us. If we wait around waiting for somebody to save us, we will end up with the NWO they are promoting, and it will be a lot harder to get our freedoms back then. Already we have lost so much.

One of the many reasons why Nazis threw Jews out of Germany. You people who call yourselves conservatives should look carefully at WHO is promoting the policies that are and will continue destroying Western Civilization. If George Soros or anyone else really is promoting the destruction of U.S. sovereignty and the home of OUR PEOPLE, he should be taken out and shot.

"Reorganizing the world order will need to extend beyond the financial system..." this is the comment that scares me the most.

It's coming & I don't know where the outrage is in America? We see people dying in the Middle East to oust their corrupt politicians, but nothing here.

Interesting book that is a great read here. It's average Americans taking a stand against federal tyranny. It's a must read for all of us.
