[TSA “Security Exercise” Covers 3 States, 5000 Miles](#)

If you're still living under the delusion that the TSA is just restricted to airports then think again. A joint VIPR “security exercise” involving military personnel has Transportation Security Administration workers covering 5,000 miles and three states, illustrating once again how the TSA is turning into a literal occupying army for domestic repression in America.

The TSA, in alliance with a whole host of federal, state, local agencies as well as military personnel, is currently conducting a massive “security exercise” throughout Ohio, Kentucky and West Virginia.

“The participating teams are composed of a variety of TSA assets including federal air marshals, canine teams, inspectors and bomb appraisal officers. They will be joined by state and local law enforcement officials to supplement existing resources, provide detection and response capabilities. The exercise will utilize multiple airborne assets, including Blackhawk helicopters and fixed wing aircraft as well as waterborne and surface teams,” [reports the Marietta Times](#).

Although the exercise is couched in serious rhetoric about preparedness, it relates to “no specific threat” and the details are nebulous to say the least and seems to revolve around little else than testing out high-tech surveillance equipment and reminding Americans who their bosses are.

• **Advertisement**

“In addition to using three helicopters for aerial inspection, the exercise made use of the Ohio Highway Patrol’s camera-equipped Cessna Caravan, which is capable of transmitting close-up, detailed real-time images of objects on the ground taken from more than five miles away,” [reports the Charleston](#)

[Gazette.](#)

The exercise seems to be about little more than a show of force by the TSA in light of a massive resistance against their agenda, particularly [in Texas where a recent bill that would have banned invasive TSA grope downs](#) almost passed and is set to be up for debate again.

Michael Cleveland, federal security director for TSA operations in West Virginia admitted as much when he said the event was about letting, "people know we're out here."

[As we have documented](#), TSA grope downs and body scans are now being rolled out on highways, street corners, train stations, bus depots, public buildings, at sports events, and even at [local prom nights](#) as part of the VIPR (Visible Intermodal Prevention and Response) takeover of the country.

The TSA has also announced its intention to expand the VIPR program to include roadside inspections of commercial vehicles, setting up a network of internal checkpoints and rolling out security procedures already active in airports, bus terminals and subway stations to roads and highways across the United States.

These internal checkpoints, run by Homeland Security, the Department of Transportation, and the TSA, [involve trucks being scanned with backscatter x-ray devices](#) in the name of "safety" and "counter terrorism".

Since the launch of the Department of Homeland Security's "See Something, Say Something" program, the DHS has also released promotional material which depicts would-be TSA agents conducting searches at public events, including a Buccaneers football game.

Homeland Security is also developing technology to be used at "security events" which [purports to monitor "malintent"](#) on behalf of an individual who passes through a checkpoint.

Forget the airports, the TSA has already spread its tentacles to invade almost every public facet of American society.

[Stock up with Fresh Food that lasts with eFoodsDirect \(Ad\)](#)

[President Obama's election campaign promise](#) to create a domestic "security force," that is "just as powerful, just as strong" as the US military is now coming to fruition as the TSA expands to turn American into a checkpoint-festooned hellhole where constant fearmongering about terror threats is the justification for the construction of a Sovietized police state.

This song parody is begging for someone to record/make a youtube video. Lyrics are my thing, I need someone else to do the rest. I would love to see it go viral as my personal shot at Big Sis Janet and her goon squads.

TSA-hole Man (tune of Secret Agent Man)

Pretending to be keeping you from danger,
He’s just a perv who likes to grope a stranger.
With each exam he makes, another bag he rakes,
Odds are you’ll see what’s missing by tomorrow!

TSA-hole man,
TSA-hole man,
Your clothes he'll disencumber,
Before you board your plane.

Taking all nail clippers that he finds,
Oglin' image-scans of behinds,
Oh, be careful what you say, around the TSA,
Or odds are you'll be gate-raped 'till tomorrow!

TSA-hole man,
TSA-hole man,
Your clothes he'll disencumber,
Before you board your plane.

(guitar solo)

TSA-hole man,
TSA-hole man,
Your clothes he'll disencumber,
Before you board your plane.

Gropin' granny at the airport one day,
Then harassing travelers boarding trains the next day,
Oh no, DHS let it slip, there's more work for this drip,
The odds are he's at WalMart by tomorrow!

TSA-hole man,
TSA-hole man,
He'll fondle your cucumber,
Before you board your plane.

TSA-hole Man!

I am past the point of getting mad. This shit is hilarious in its own way, so I do song parodies. I should do enough for a TSA parody album. I toss all my lyrics onto the web public domain freebies, anybody who likes can record them. I bogart the tunes anyways. Here is my latest.

Chuck the TSA (tune of God Bless the USA)

Since nine one one the freedom's gone,
I enjoyed all my life.
Now I rarely fly 'cause I'm concerned,
For my children and my wife.

Obama and his tsars,
Are now ruling here today.
Our flag once stood for freedom,
But they've taken that away.

It's no fun to be an American,
When you get groped for "safety".
Or choose to get your gonads fried,
While you show your nudity.

And we barely stand up,
In long lines and endure needless delay,
Screw this fed takeover plan,
Let's chuck the TSA!

From MSP in Minnesota,
To MEM in Tennessee,
At DFW in Texas,
TSA won't leave you be.

From travelers to Houston,
and New York to L.A.
There's outrage in every American heart,
And its time we stand and say ...

It's no fun to be an American,
When you get groped for "safety".
Or choose to get your gonads fried,
While you show your nudity.

And we barely stand up,
In long lines and endure needless delay,
Screw this fed takeover plan,
Let's chuck the TSA!

It's no fun to be an American,
Where we get groped for "safety".
Or choose to get your gonads fried,
While you show your nudity.

And we barely stand up,
In long lines and endure needless delay,
Screw this fed takeover plan,
Let's chuck the TSA!

... This may not be as new as it sounds. A few months ago, I was with a couple of other people, and we saw 2 black unmarked helicopters flying south by southwest.

"which is capable of transmitting close-up, detailed real-time images of objects on the ground taken from more than five miles away," reports the Charleston Gazette."

"If would war 3 starts"

I seriously doubt that this is an if but when. The foundation and trends already exists:

A). Globalization.

B). Collapsing Republic, economy, infrastructure, and currency.

C). Enhanced know how and technological advancement of other nations particularly rivals through globalization. Consider, China recieved 40k factories capable of producing modern military equipment. (Basically, the concurrent strategy to supranationalism is enhancing China's ability to expand by conquest).

D). Nuclear Exchanges is very likely as World War and nuclear weapons dually forces the climate to readjust (cool by Nuclear Winter) and depopulates the planet. (Nevermind, it would cause genetic diversity and replenishment to be fatally weakened).

I doubt that it's an if; the question is when.

The effective hit back against virtually all of the horsehit that is coming at us is massive refusal to use socialist slavestate numbers. Yeah, that might sound crazy and off point at first glance, but why do I constantly harp on that point?

Socialistic insecurity/SSN use (which makes you a participant) is at the root of virtually all socialist programs in the USA. SSN use on the job, totally voluntary by law, virtually totally enforced by corporate policies (based on ignorance, fear, and a handful of malfactors) is what allows them to treat you as a 14th ammendment "US citizen" aka slave, incurs income tax withholding, incurs liability or at least a strong presumption thereof for FICA, federal income tax, state income tax, local income tax, and pretty soon Obamacare. SSN use conveys certain powers of attorney regarding your employment, bank accounts, insurance policies, brokerage accounts, etc. SSN use puts you in line to be a recipient of "benefits". You can't be a sovereign with govt. as servant if they see you on the dole. Massive refusal to use SSN's would set back the socialist/globalist agenda here by many decades.

There is no such thing as a politician who is standing up and telling the truth about Socialistic insecurity and socialist slavestate numbers, not even Ron Paul. THE pressure point/dim mak strike against the sytem would be to push for legislation that requires full plain language disclosure of all terms, conditions, rights waived, and liabilities incurred anytime anyone anywhere for any reason asks for a socialist slavestate number.

They should set-up seismic detectors on bridges and see which trucks are pounding the bridges the hardest. Oh, just a funny notion about trying to link loss-prevention back to some kind of reality, instead of the path of hysteria. A terrorist in the back of every truck is spook stuff. Or how about some infrared cameras at the bottom of a hill to see who has bad brakes. There must be something useful for the TSA to do rather than just harassing people as part of a rogue government psychological mind control operation.

"He that leads into captivity shall go into captivity; he that kills with the sword must be killed with the sword. Here is the patience and the faith of the saints." Revelation 13:10

I say, let those that want to stand up and fight do so – but don't ever forget Who's really in charge. I'm not afraid of a FEMA coffin or the TSA Gestapo. We may be pitted against those who worship Lucifer in our struggle for Freedom in this day and age, but my God Created Lucifer. My God Created the whole Earth. My God knows what we're up against. I'll trust His Word before I'll ever trust my own strength. Especially against M-16s and airborne assets.

So for the time being, I will do whatever the goons tell me to and avoid making my nationality look irrational. I suggest the rest of you grin and bear it, vote in 2012 and use your words as your weapons. Make a rational scene and loudly asset that you are an American and your rights are being taken. Make sure people take notice. Kill the brutes with kindness and show them the love of a neighbor. We are bigger than the mindless violence and chaos our media has programmed into our subconscious!

Even so, in the end it's "Give me Liberty or give me Death." Real Liberty starts in your heart. The Nazi NWO can take my freedom, but they'll never get my heart. That belongs to Jesus.

"So for the time being, I will do whatever the goons tell me to and avoid making my nationality look irrational." What does making your nationality look irrational mean? You say you'll "do whatever the goons tell me to." So, you'll step into an x-ray machine which will give you cancer even though it violates your Constitutional rights to do so? At this time, you do have the right to refuse, so why would anyone "do whatever the goons tell" them to do?

Remember that you never have to answer a single question without having an attorney working for YOU on YOUR behalf, nor do you have to submit to anything else unconstitutional.

"I suggest the rest of you grin and bear it, vote in 2012.." You *really* believe your vote counts? I guess you need some education. Our vote disappeared with the institution of the "primary election." The "primary" almost guarantees that in the end, either the Republican or Democrat establishment candidate gets in.

In the few cases where non-establishment candidates actually win an election, these people are marginalized: assassinated, blackmailed, imprisoned on false charges or otherwise silenced. Just ask Ross Perot. He was marginalized in the "otherwise silenced" category – and he never even was elected! The establishment was just *afraid* he would be elected president and upset their plans.

Most of the "establishment politicians" are mere puppets who are taught to read a teleprompter, how to placate and avoid their "constituents" and how to keep their mouth shut.

All of the world's few real democracies have no primary election.

Ah, so that's why all those helicopters are flying around. They got the surveillance on the interstate, they make them look like reflective road markers, but if you hit them they get all bent, and you can see the cable attached to them. Some are white, others are yellow or red. They got a black top to them, which I assume is a sensor for the road.

sad that im only a new zealand 22 year old and i may not live to see 30 if theres world war 3 the amount of nukes that may be launched the world will be next to no more radiation sickness everywhere

I really dont want to even think of the chaos of Pakistan,China,Russia one that was left out if attacked france and every other country with nukes get involved into the worst war ever

As far as i know if one country launches nukes against another country then that country retaliates with nukes nuke silos will be working over time

TSA seems evil aswell I tell you if this happened at new zealand airports well if it happened to me i would punch there faces in ild go all out nuts

obama youth does that include justin beiber lmao

I only hope im not being taken for a ride by Alex Jones but I really dont think I am

I only hope lastly world war 3 never happens and all you guys and girl up there stay safe I like the real america land of the actual free not land of tyranny and I like americas so try stay safe and have a good day or try to.

Silo launched weapons disappeared about 20 years ago. You must be watching some old movies.

IMHO: If you're in New Zealand, that's probably about the safest place in the world as far as surviving WW3 goes. But, I've heard from a few sources that New Zealand became a police state. If you speak about 9/11 truth, cults established in New Zealand, or other subjects that your government placed off-limits, then your government can send you to a mental hospital for "treatment." I read an article by a reporter working for a news agency outside New Zealand who was covering something she should have ignored, and ended up detained in a mental hospital until her editor and some attorneys had her released. I imagine she's now living elsewhere with political asylum from your police state.

when confronted by tsa put your hands up in the air as if you surrender. be loud so that everyone around hears you and witnesses what happens. state you are an AMERICAN citizen. state that your rights are being violated and you are not a threat. yell to the crowd for help. ask if anyone is an attorney. yell your natural born rights are being violated. demand the tsa call 911 because you need the police. if in fact the tsa did something like touch you or go into your bag without your consent demand from the responding police to file a police report and request to file charges. demand that the offending tsa agent be identified by the responding police. if the police refuse to help you demand to see their supervisor. if you cannot get anywhere demand the officers name and badge number and demand from them information on how to file a complaint against them. be firm, do not be rude, do not break the law. make a big enough scene so that there will be many witnesses. they will want to remove you to another room for privacy. tell them no that you are afraid they will harm you. if they tell you to leave the building then comply remember do not break the law. use logic not emotion. once you get emotional you lose. at any airport if 25 or 50 people did this a day things would change. the tsa agents would not want to deal with anyone from the public. their supervisors would not want to deal with the mess. the police would not want to deal with the mess. you may think i am crazy but ask yourself am i crazy or is your govt., the govt. that is conducting all of this crazy. i dont plan on putting my hand down your pants. i dont plan on taking naked pictures of your family but your govt. is doing this right now.

I just talked to Army reserve personell living in Columbus Ohio not 3 months ago. I travel all over the USA for my job. I ran into 8 of them in a gun store. (two separate units) They all told me that not them nor anyone in their unit will participate under any circumstances to violate possecommittas.

I will be going up their very likely in the next two weeks. You have all noticed it involves stopping commercial vehicles. We need to get the word to all truckers in the area to refuse to allow searches or cooperate. I use to drive a tracker trailer(local food stores). I would have told them to go f themselves or get a warrant.

You noticed they are not stopping civilian privately owned vehicles. This would be very impracticle to do. You would have traffic jams miles long on highways. If they ever start, I hope you all have a nice hand guns ready to put in the face if any military or TSA oersonell who dare ask for your license and registration. If this ever happens I would start out with the middle finger and you are a security guard or military and you cannot tell me what to do. Drive off. If a cop follows simple ask "why am I being pulled over?". If they tell you for not cooperating with illegal stops searches and siezure demand their supervisor. Get as many personnel tided up with you so that others will not be harrassed. Asked them where is your warrant? Refuse to cooperate in anyway. I will not even give them my license unless they can give a legitamate reason for pulling me over.

this nazi style internal security web is out of step with the us constitution amendment 4 that states all americans are secure with in their papers person and dwellings. and that with cause a warrant signed by a judge stating in writing the items to be inspected and why!

with out cause and a written warrant signed by an elected judge for that jurisdiction only after these articles have been established can any agent of government seek inspections of the person his papers computers, vehicle car, dwelling home! any deviation of this law is a violation on behalf of government and anyone who believes he or she has been violated by a tsa or dhs agent should file papers with or with out a lawyer at your district attorneys office.

government has no legal right to put anything on you touching you or erradeating you with x-rays? with out some cause of reason? being american is no reason? being arab is big reason according to alla who states death to all infodiles americans!

so what really is happening in america? God is judging a wicked and sinful nation hell bent on pissing off the Living God Yawa and his son the missia saviour Yahshua your only hope.

we all need to vote out these criminals who work for the federal reserve banking system, period. a second american revolution as outlines in the declaration of independance and a real repentance revival as infered in the book of daniel 7:4 God's forth of july for the nwo bankers.

satan will always be a loser he can kill you but can't rewrite the word. God can't lie! i am asking Yahshua to blindside the puppett master here in the usa. 15jun11

Brother, while I do commend you for spreading the Gospel of Yeshua Jesus and His father Jehovah, you might be a better witness if you were a little more careful with the keyboard. That's Daniel, by the way:

"The first was like a lion, and had eagle's wings: I beheld till the wings thereof were plucked, and it was lifted up from the earth, and made stand upon the feet as a man, and a man's heart was given to it." – Yeah, I've always thought this vision was a metaphor for the US.

You keep asking Yeshua to confound the Illuminati, but don't forget to ask for the forgiveness of our nation while you're at it. I pray that at least once a day – for myself AND for America.

The TSA, in alliance with a whole host of federal, state, local agencies as well as military personnel, is currently conducting a massive "security exercise" throughout Ohio, Kentucky and West Virginia.

I commented a couple weeks ago saying That this area (APPALACHIA) has the most armed and ready patriots in our country. Hillbilly's have always been the toughest, most resourceful and defiant people America has had to offer. With there long history of standing up for there way of life, they will fight if provoked. Most of the native population in the boonies around here have scotch-Irish blood in them, war is second nature to us. Remember the Kentucky rifle won the first American Revolution, don't underestimate us. Remember the census worker hung from a tree, with the word PIG carved into his chest, that was Kentucky (Daniel Boon National Forest) and they don't play games. That poor census worker got to close to somebodies cash crop (Wink, nod) Imagine the response to gun confiscation, as in digging up there cache.

There is a lot of armed patriots in that tri state area with a lot of mountainous woods, which I know for a fact has many food and weapon caches. I live in the Appalachians myself and know of many patriots who are preparing to defend there way of life.

BLESSEDHELLRIDE,

I agree with your sentiments.

However, an investigation into the death of the census worker revealed that it was a suicide. The man attempted to make his death look like a lynching. Unfortunately, his handiwork was amateurish, as is usually the case for the government, and he left obvious clues that he committed his own murder.

i cannot believe anything the govt. says anymore. i would think the census worker probably was killed and the govt. lied about it. they declared it a suicide for 2 reasons. #1 they did not want all the census workers to be hurt by citizens that may hear of the murder and do a killing of their own(ever notice that a big school shooting happens and they put it all over the news then a copycat will do another school shooting) #2 they also did not want all of their census workers quitting. knowing how angry people are with the govt., census workers, upon hearing of a killing of a fellow worker, may just up and quit. remember that the census workers being employed were a HUGE number of people that skewed the actual unemployment numbers for the govt. making it look like more people had jobs but in reality they were temp. census worker jobs. when the census lady came to my home i was not rude or intimidating to her but every question she asked i would respond back to her with a question. from the look and demeanor of her i would bet that many of the homes she visited before mine probably made her job difficult. next time around i bet she would not take the job as it probably was not worth it for all the frustration she received. when dealing with a govt. worker dont be mean, dont break the law but more importantly dont be a punk.

"The exercise will utilize multiple airborne assets, including Blackhawk helicopters and fixed wing aircraft as well as waterborne and surface teams."

And people will STILL laugh at people that say the black copters are buzzing around despite an announcement like this. That area is one of the most anti-Fed parts of the USA, and definitely for the Eastern portion. They purposely chose this region for the first exercise for that very reason. There is quite a bit of remote wilderness in western West Virginia, so I'm not really sure where they are going to be, possibly just clogging up country roads and letting folks in the sticks know they are not exempt from the excesses of the TSA.

Fear leads tio immediate irrational action. The key is to not react at moment unless life or limb is at risk. Those who provoke such fear/action have a higher probability of predicting a persons behaviour than others not involved in situation.

Keep your head and act in rational yet calculated irrational manner to confound.

It works.

This is out major bus line in Canada ...Greyhound....

BURLINGTON, Ont. (Dec. 2, 2008)

GREYHOUND CANADA ENHANCES SECURITY ACROSS THE COUNTRY

Company takes leadership position in the industry, implementing new measures

— Greyhound Canada today introduced new security measures, which are designed to enhance existing security at its locations across the country, starting with Edmonton, Calgary and Winnipeg. Other locations will begin implementing security Dec. 15. The additional security follows a comprehensive two-year study, which reviewed all potential measures considered most effective for intercity bus and the rural nature of its network.

The company will now conduct passenger screening at its major terminals, including a security check with a hand-held magnetometer. In addition, Greyhound is now mandating all luggage be stowed underneath the bus, with reasonable exceptions made for customers needing essential items. A comprehensive list of restricted and prohibited items can be found on the website..

“Making bus travel even safer is a responsibility we take seriously, and by taking a leadership position in the industry, we hope to set an example for other carriers to follow,” said Stuart Kendrick, senior vice president, Greyhound Canada. “Yet, the high cost of implementing such a program should not fall squarely on the shoulders of the private sector, so we will continue to advocate federal support for bus security funding.”

I wasn't even aware this had happened since I have never traveled on gre y hound...however..

The worst terror on a bus is an inexperienced driver or bad roads. Bus Terror, a new invention, brought to you by the TSA. You have to love how they are so desperate to find Terror somewhere. They sound like a bunch of paranoid nutcases who are smart as a fox to deploy more screeners. GET THE HELL OUTTA MY COUNTRY. We need a constitutional amendment to supplement the 4th Amendment—not weakening the 4th Amendment at all, but adding to the protections already afforded—that limits the use of technology in search and seizure. Of course, the government would probably ignore it as much as they do the current protections, but I still think it is needed.

What a waste of time. The "establishment" has already violated MOST of the U.S. Constitution. Here are just a few examples: Barry Soetoro is unconstitutional. The "Fed" is unconstitutional. Social Security is unconstitutional. The war against Libya is unconstitutional. The Sedition Act of 1798 was unconstitutional (wow, 213 years ago!). Federal "grants" are unconstitutional. The issuance of "executive orders" is unconstitutional. US issued "student loans" are unconstitutional. "Primary elections" are unconstitutional.

Amendments to a nearly nonexistent document are pointless. Pray for a miracle, that the U.S. Constitution is FOLLOWED for a change. That Miracle will NOT be Ron Paul. He has "Establishment" written all over his face and it's time Alex Jones discovers this fact. Ron Paul is as phony as the "Chinese Missile Launch in Los Angeles" last November.

The globalists already know who they want in there and they are using the media to spew their propaganda to steer American minds in the direction of their will, making us think we still have a voice.
