Author Greg Felton - US Needs Anti-Zionist Military Coup

A Brief Review of the book by reader:

**by Michael Sandeford
(for henrymakow.com)**

In "*The Host and the Parasite*," author Greg Felton concludes that only a military coup will save America from destruction by Zionist forces.

Such a military government could:

- **Institute a Nuremberg-style war crimes tribunal to prosecute the leaders of the lobby and the junta for treason and crimes against humanity;**
- **Declare null and void the Supreme Court confirmation of justices John Roberts and Samuel Alito, and void all fascist legislation passed over the last six years, including the USA PATRIOT act:**
- **Call for a proper investigation into the September 11 attack;**
- **Freeze and liquidate the assets of every Zionist Jewish and Christian organization and place the proceeds in a bank account for distribution to Palestinians, Iraqis and Lebanese; and**
- **Declare military, economic and political war on Israel.**

My first interest in the book was stimulated by the YouTube video screened at the Vancouver Public Library, and introduced by a member of staff as "in the interest of free speech"!!

The author has succeeded in guiding the reader through 17 chapters of detailed study of the philosophy and then the coup that has changed the control of the US government as we know it.

In the chapter entitled "Enemies of the State," Felton writes , "To stampede the nation into a political war for Israel, the junta had to wage a preliminary war at the pentagon's military culture, which was based on the moderate Republican tradition of multi-lateralism, regional stability and labor Zionism."

The man charged with imposing PNAC's worldview on the pentagon was (the now former) Undersecretary of Defence for Policy Douglas Feith, the third highest ranking Pentagon Zionist after Rumsfeld and Wolfowitz. He was responsible for purging the Pentagon's military planners of anyone who didn't fall lockstep into line with the junta's imperial agenda.

Out of a sense of duty, some officers have gone public to denounce the political intimidation, corrupt decision making and subversion that brought about the fiasco in Iraq.

The most famous of these officers is former Air Force Lt. Col Karen Kwiatkowski. In May 2002, she joined the Pentagon's Near East and South Asia policy office, but the office was forced to share with another occupant, the Office of Special Plans, sometimes referred to as "Plan B".

It was set up by Rumsfeld to disparage CIA and DIA reports, and to concoct sophistries to prove the existence of WMDs and/or a Hussein-Bin Laden connection. It was directly answerable to upper-level PNACers in the Pentagon and White House, including Cheney and Rumsfeld.

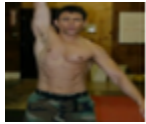

He explains the power of the Zionist lobby, mainly led by AIPAC which has become the main producer of propaganda, disinformation and coercion to influence the White House, the Judiciary, the Senate and the House of Representatives.

The Neocon's wrote the infamous document PNAC (Project for the New American Century). In this document Felton clearly shows it to be the blueprint for the Israel first policy which has led the Junta to the attack on Afghanistan, war in Iraq and the fascist installation of the US police state that is currently in control.

In Chapter 11 Entitled "A New Pearl Harbor". (The 9/11 attack on the world trade centre) "was the seminal event that allowed PNAC to turn the U.S. into a fascist state.

The author points out the Mossad involvement in the attacks i.e. The Five Israeli's Acting strangely in dancing on top of a van, their arrest and later their deportation to Israel, their appearance on a Israeli TV show where one of them made the statement: " The fact of the matter is, we are coming from a country (Israel) that experiences terror daily. Our purpose was to document the event". They had foreknowledge of the event! They planned and executed it.
