Down below is last three year Elenin Earth alignment dates and Earthquakes data:

**Note:** Comet alignments can cause 6+ earthquakes seems to have been proven multiple times yet mainstream science continues to ignore this valuable warning tool.

One surely must ponder the probability of this occurrence. In the United States, there has not be a recess of both the Congress and the Senate at this particular time in at least 10 years.

On Wall Street, the insiders have vanished from the stock market overnight. According to [MarketWatch](#), "Something ominous is happening on Wall Street, but nobody has noticed. The insiders have vanished. Chief executives. Board members. The head honchos. The people who know. Just a few weeks ago, they were out in force, buying up shares in their own companies with both hands. No longer. They've disappeared. Almost overnight. What insiders do with their own money is one of the stock market's best barometers

While many are unsure of what Elenin might bring, there is talk about a possible psyops or [false flag](#) program being utilized. Project Bluebeam. [Alex Retrov](#) also stated that Elenin will bring a cataclysmic scenario to our planet. A third possible scenario would be an undetermined false flag event, possibly with the instigating of a World War III scenario by the neocons and oligarchs, or perhaps a bank run or financial collapse.

It is this writer's opinion that we will most likely see a few major earthquakes in the September 26-27th time period, but I highly doubt that Project Bluebeam will be implemented as much as I doubt there will be a global cataclysm on that date.

But the coincidence remains perplexing.
