

# Is Mitt Romney a CIA/Mossad Asset?

Forget the United States Congress, or the United Nations. If you want to know who is the really in charge of bringing in the Illuminati New World Order, you need to focus on the activities of the world's intelligence agencies. The CIA does not work for the interests of the America people, anymore than Mossad is working for the interests of Israel.

Both groups fall under the jurisdiction of the British intelligence agencies, and British intelligence is owned by the Rothschilds and "The Crown". The goals of the "Crown" have included:

- 1. MK-Ultra mind control programs designed to create the perfectly obedient citizen, and soldier.**
- 2. The narcotization of the Western World for profit and destabilization. Remember, it was the "Crown" that fought to keep Opium safe and legal in China during the "Opium Wars".**
- 3. The establishment of a Rothschild/Rockefeller controlled central bank in every nation for plunder and tribute to "The Crown" .**
- 4. The election of "Crown Loyalists" around the globe.**
- 5. The ruthless assassination of "Crown opponents", also known as Nationalists.**
- 6. The establishment of Communism for genocidal eugenics programs of those races "The Crown" views as inferior.**
- 7. The establishment of Communism for the purpose of forced labor camps, also known as cheap help.**
- 8. The establishment of Fascism to unite Communism through opposition.**
- 9. Control over the worlds oil resources by "The Crown"**
- 10. Control over precious metals and all other natural resources through Federal set-asides that are then sold to agents of "The Crown".**
- 11. The manipulation of Israel as antagonist for World War III and war between Islam, Christianity, Marxism and Judaism.**

In order to accomplish these objectives, the world's intelligence agencies run "Covert Operations" outside of the awareness of general public. These covert operations, when exposed, are explained away as necessary to "preserve democracy" by agents of the Crown and their news services, media outlets.

Iran-Contra exposed the CIA's involvement in drug trafficking to America's inner cities. Afghanistan is once again the world's largest exporter of Opium, thanks to military orders that prohibit American troops from destroying the crops. Barry Seal and Oliver North have both been reportedly linked to an alleged drug operation run out of Mena, Arkansas. Bill Clinton, who was governor at the time, has also been accused of being involved in the Mena cover-up. (Source)

Which brings us back to George H.W. Bush. Bush is the American representative of the "Crown" and the Rothschilds. This is the only explanation for the Bush dynasty in American politics. The Senior Bush was the Director of Intelligence in 1975 and 1976, and stopped the Church Committee from gutting the CIA.

"The Office of United States Director of Central Intelligence (DCI) was the head of the United States Central Intelligence Agency, the principal intelligence advisor to the President and the National Security

Council, and the coordinator of intelligence activities among and between the various United States intelligence agencies (collectively known as the Intelligence Community since 1981).

The office existed from January 1946 to April 2005 and was replaced by Director of National Intelligence (DNI) and Director of the Central Intelligence Agency (D/CIA)." (Source)

Every President from Carter to Obama has kissed the Bush Ring and swore to uphold the interest of "The Crown". The Intelligence Community also has a history of using pedophilia and narcotics to compromise and blackmail politicians into staying loyal to "The Crown".

Romney is endorsed by Bush. This means that Mitt Romney will uphold the interests of the "Crown" and work to bring about their "New World Order". Romney also has his own links to the intelligence communities:

1. Christopher Bolyn writes: "Mitt Romney, for example, has very close ties to a high-level agent from Israeli military intelligence, the woman he made CEO of Bain & Company."
2. Romney can be directly tied to Adnan Kashoggi through a known intelligence asset for the CIA, Frank Morse. Morse was Chief of Staff for Howard Hughes and still counseled the Hughes Estate. Morse also managed Kashoggi's Triad Group, which plundered Utah with the assistance of some very prominent Mormons. An estimated 180 million dollars was stolen by the Kashoggi Group through BCCI and used to Fund Iran-Contra. (Source)

Kashoggi has also been linked to Mormon Bishop, Wally Hilliard, who reportedly acted as Kashoggi's front man on narcotics deals and the acquisition of the Florida Flight School that trained the 911 hijackers.

"In the 1980s and 1990's, as a partner in the law firm Sandler, Rolnick & Morse, Morse served as Chief Legal Advisor for Adnan Khashoggi in the United States and Europe. Morse was responsible for complex litigation and business transactions for Khashoggi, personally, and for Khashoggi's Triad Group of Companies."

Most importantly, forget the fact that Bush endorsed Romney.

Interestingly enough, Frank Morse, one of the kidnapped Civil Rights workers in the 1960s, ended up as being the lead attorney to Howard Hughes:

"Morse became general counsel to Howard R. Hughes and Summa Corporation, and a member of the board of directors of Summa Corporation. Hughes learned about Morse in a Los Angeles Times article --- one in which Morse was described as an indomitable young attorney who had just won fifty-two cases in a row. "Get me that lawyer!" Hughes is reported to have shouted to his chief of staff. In addition to being Chief Legal Officer for the umbrella corporation for the holdings of Howard Hughes, Morse served as legal counsel to the President of Summa Corporation which had businesses ranging from airlines, to helicopter manufacturing, to resort hotels. Morse is still legal counsel to the estate of Howard Hughes, which remains open." (Source)

Frank also managed resources for Adnan Kashoggi, the pump and dump maestro linked to the Florida Flight School that trained the 911 hijackers and laundered money for Iran-Contra:

"In the 1980s and 1990's, as a partner in the law firm Sandler, Rolnick & Morse, Morse served as Chief Legal Advisor for Adnan Khashoggi in the United States and Europe. Morse was responsible for complex litigation and business transactions for Khashoggi, personally, and for Khashoggi's Triad Group of Companies." (Ibid)

Morse has done other work for the intelligence community:

"Morse was the attorney for Larry Kolb during, among other times, the American businessman and intelligence operative's troubles which stemmed from Kolb's involvement in the St. Kitt's Affair, a political imbroglio involving Kolb's friend, Indian prime minister Rajiv Gandhi, and various cabinet members of the government of India. Kolb credits Morse with being the brightest attorney he ever met..." (Ibid)

Morse also worked with Bain Capital, Mitt Romney's company.

"From 1996-2003, Morse was Chairman of the Board of BLI Holdings Corp., **a company financed and partially owned by Bain Capital**. The company was a contract manufacturer for Paul Mitchell Systems and Victoria's Secret and other cosmetic and hair care products in the United States. The company had factories in California and New Jersey totaling over 750,000 square feet (70,000 m<sup>2</sup>). The company had approximately 1,000 employees and gross revenues of over one hundred and thirty million dollars when it was sold for a significant profit in 2003." .... (Ibid)

And Jon Huntsman Senior, the CFR member that helped prop up the former Soviet Union

"In 2007, Morse was named a Managing Director of H&G Capital Advisors. H&G Capital Advisors is part of Huntsman Gay Global Capital. With its principal offices located in Palo Alto, California, this new private equity fund was started by Jon M. Huntsman, the famed Utah industrialist and philanthropist, and Robert C. Gay, the long-time Managing Director of Bain Capital and former chief of staff of Howard Hughes. H&G focuses on middle market leveraged buyouts, growth capital investments, restructurings and strategic investment in mid-cap public companies. The Fund has in excess of \$1 billion dollars in limited partner commitments..." (Ibid)

Robert Gay is another Mormon Illuminati member that founded Bain Capital:

Mr. Gay has been involved in the private equity business since 1986. From 1989 to 2004, he served as a Managing Director of Bain Capital. He was one of the firm's senior partners and served as a member of its Management and Business Policy committees. He also led many of the firm's investments and oversaw Bain Capital Europe where he opened the firm's London and Munich offices.

Mr. Gay resigned as a full-time partner from Bain Capital when his church asked him to take a volunteer assignment as its Mission President for the countries of Ghana, Sierra Leone, and Liberia from July 2004 to July 2007. On 5 April 2008 Robert C. Gay was called as an Area Seventy, for North American Southeast Area for The Church of Jesus Christ of Latter-day Saints. (Source)

Gay also reportedly worked for Howard Hughes:

"Mormon Bill Gay was in charge of coordinating all of Hughes' activities from a warehouse in L.A. on Romaine St." (Source) ...1959 Hughes gave Meiers a job in the computer division at Hughes Aircraft. Meier & family moved to California. Meier later worked at Remington Rand Univac. Within two years Bill Gay hired Meier at Hughes Dynamics.

\* Gay told Meier it was a company to improve the operations of the U.S. Post Office.

\* It turns out Howard Hughes had no knowledge of Hughes Dynamics. When he found out he was furious and closed it down. **Hughes told Meier Gay was Mormon and it was set up so the Mormon Church could computerize their genealogical research.** (Ibid)
